A GLIMPSE IN SIGHT

ANANDVAN BAHUDESHIYA SANSTHA'S

ANANDVAN

De-Addiction cum Rehabilitation Center

Dr. Ajay Dudhane
President

A visionory of same minded people and **Anandvan Bahuuddeshiya Sanstha** was only the fruitful outcome from **Dr. Ajay Dudhane**, a graduate from Fergusson College, Pune.

A vast experience of 13 years in the field of De-addiction and Rehabilitation as a front personality, has achieved successful wrapo in the society.

Anandvan De-addiction & Rehabilitation Center was established in the year 2009, to help various addicts from the society.

Dr. Ajay Dudhane as a key person of the organisation, with a perfect vision of awareness, since yet has helped out many homes to get a stability & override social, economical and family stresses.

He is been felicitated by various achievement awards

'Vyasnmukti Seva Puraskar' by the government of Maharashtra State in 2013

'Mother Teresa Sadbhavana Puraskar' by Global Achievers Foundation, New Delhi in 2013.

'Doctor of Honours - Social Work' by International Open University - ALMA ATA' Columbo in 2014

We take this opportunity to introduce ourselves as an upcoming visionary Nongovernmental organization who aims at development with quality services.

Anandvan Bahuuddeshiya sanstha is a registered charitable trust under the Bombay Public Charitable Trust Act. It was founded by some like minded people with an aim to make a qualitative difference in the existing societal structure.

The main objective of the Trust is the well being of common man, to realign his personal, social, family & economical health at large. The area of interest varies from Health initiative for general population to specific special need groups like Drug users, women & children, HIV infected individuals, special need population etc.

The philosophy behind its foundation was reaching out to victims of drug use. The focus of the De-addiction programme is on prevention, treatment, awareness, after care & follow-up including the support to the family members. It's a complete rehabilitation model.

Anandvan Bahuuddeshiya sanstha &

Anandvan De-addiction & Rehabilitation Center started its moto in a very small place in Chandan Nagar, Pune with a aim of creating awareness for addiction amoungst the society.

Focusing on the various aspect of the society **Anandvan De-addiction Center** programmed the basic structure of treatment modules with a vision of Deaddiction.

It was a begining of social awareness via various street plays, mass counselling, blood donation & free eye checkup camps, distribution of IEC material.

Along with the help of the society **Anandvan Bahuuddeshiya Sanstha** started its venture known as **Anandvan De-addiction & Rehabilitation Center** with the guidelines given by Social Justice & Empowerment, Government of Maharashtra.

Until now the trust has shifted itself from a small to a two, five storeyed 18500 sq.ft. buildings with a capacity of 80 beneficiaries with a slik and steady programme of De-addiction.

Until yet around 1500 people have been treated for deaddiction with a success rate of @40 to 43%. Around 79 inmates are indulged in the treatment module.

Along with a friendly and carey environment, theres lot of facilities provided to the beneficiary.

A huge Chat and T.V. room where all can sit and entertain themselves within the leisure time.

The heart of the community,
A well equipped Kitchen not only with modern amenities, but also with complete hygenic treatment and care.
Only vegetarian food is been served with a total Maharashtrian taste and cuisine.

The complete comfort for each individual, taking the best and ample breathing space, with entirely safe and hygenic environment.
Laundretes of each are hygenically cleaned and taken care.

Yoga & Meditation enacts a crucial role in de-addiction and recovering process

A crew of fully trained Yoga and Physical training teachers every minute monitoring the health and physic of the patients.

Anandvan De-addiction Center ensure the minimisation of the losses occurred in addiction. The losses such as health, mind and self respect.

Thus it does not ends with amenities & exercise, but a prominent role of Individual Counselling is also a main and effective aspect in recovery. Its a good & qualitative weapon to understand the person for his own abilities and lackings.

To Be Or Not To Be

Its always a prime question for the addict or his family..

In **Anandvan De-addiction Center** people come with this question mark on their faces,

Does it really happens ?
Is it possible ?

These people have lost their equilibrium of the life.

In **Anandvan De-addiction Center**, We ensure them about each and every aspect of De-addiction. We teach the addicts how to overcome the do's and don'ts of the life.

Humanity is our first lesson. Apart from the SuperPower, we should emphasise the moto of our life.

I also dreamt to be a **Tendulkar**

These are the real dreams of childhood.....

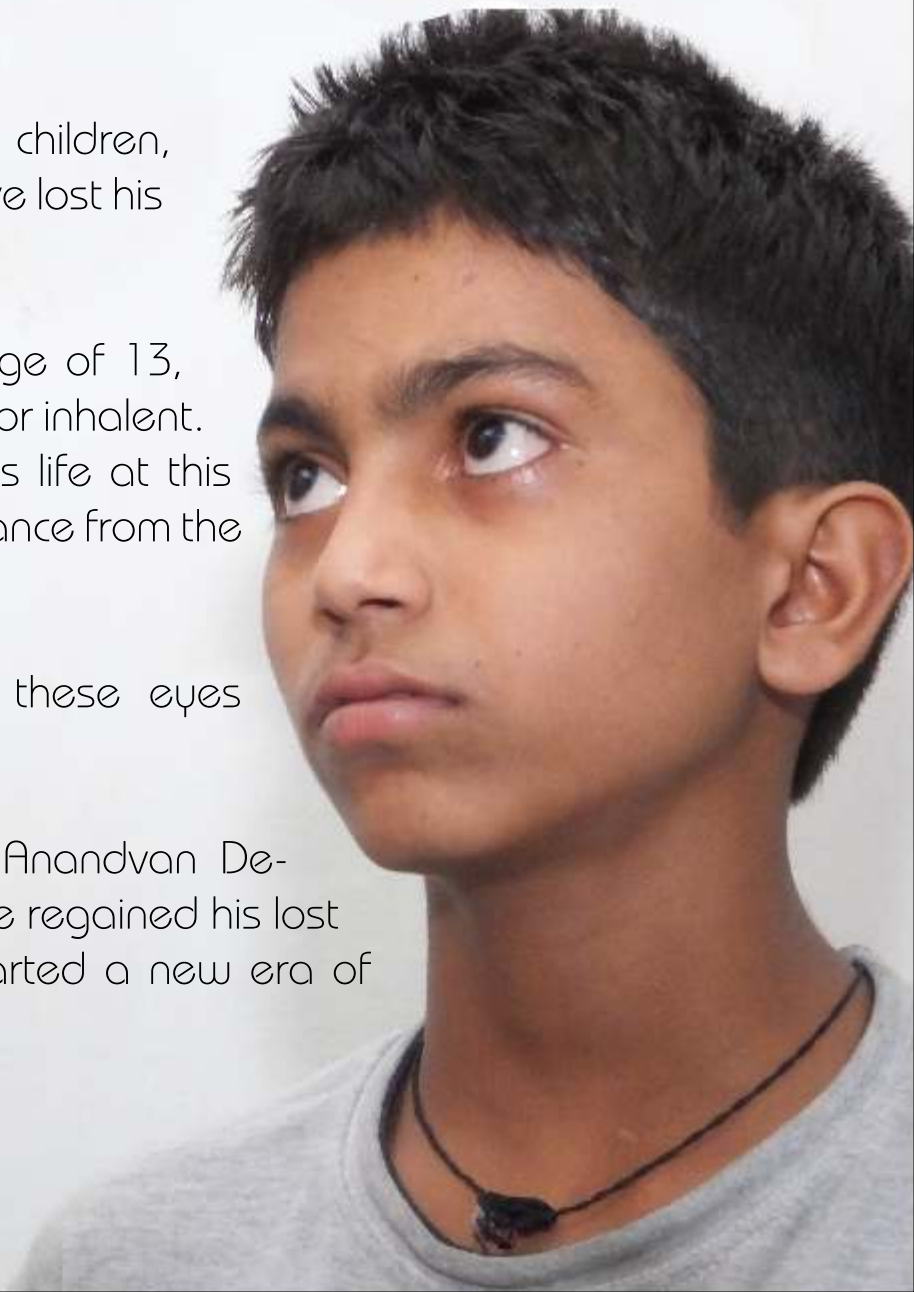

Can I achieve the goal of my life....
Eventhough I am a child, can I ever reach
to my destiny....

Amoung all the addicted children,
he is one of them who have lost his
childhood.

A innocent boy, at the age of 13,
was chronically addicted for inhalent.
It was a crucial time in his life at this
age, getting a lot of ignorance from the
family as well as society.

Many many dreams in these eyes
always said 'WHO AM I?'

Yet he got an entity in Anandvan De-
addiction Center, where he regained his lost
confidence and again started a new era of
childhood.

Camps for the blooms..

Anandvan De-addiction & Rehabilitation Center,

every year, arranges a camp for those ingredients of the society, who cannot bear the treatment

This is venture project of **Anandvan Bahuuddeshiya Sanstha**, specially designed for the school going & adoloscent children, whose parents are either labours or competing their lives for earnings.

In the year 2013, One of the 10 Days Free Residential Camp was organised for the children who were hunted by various types of addiction.

Whitner, Fevi-Bond, are few substances, without odour in addiction, but gives a 'High' for these growing brains.

Possibly we can change the scenario.... It is much easier to bloom the childhoods by a proper mind management and emphasising on standards of living.

**Anandvan
De-addiction
Center**

tries to do it well...

The First De-addiction 'HELPLINE' in Maharashtra

9373763636

Members in the family and the society are always in search of the sources to ensure a good and healthy life for their addicted relative.

***WHERE TO GO ?
WHOM TO ASK ?
WHO CAN HELP US ?***

Theres the only way to solve all these question marks.

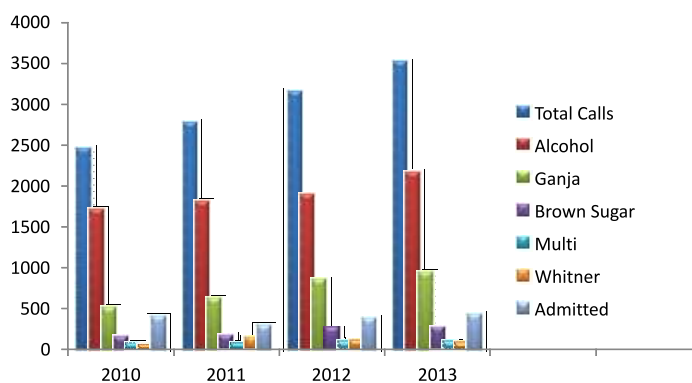

Anandvan De-addiction & Rehabilitation Center started the first de-addiction 'HELPLINE' in the midst of the city to ensure a quick and firm helping hand.

We Care Smiles...

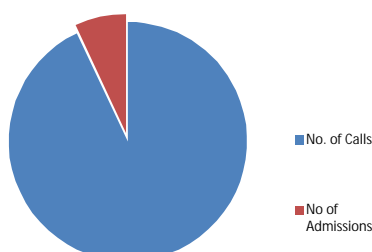

Total number of calls received in Anandvan De-addiction Center within 4 years.

Considering the amount of enquiries and phone calls from the society, **Anandvan De-addiction Center** always tries to reach such needy people. As the age of addiction, day by day, is getting lesser, various addictive substances and types are getting fame and publicity through various media outlets.

To monitor these happenings, along with **Anandvan De-addiction Center**, 'Helpline' has a keen eye on the society.

Due to scarcity of financial sources we could not reach each and every ingredient of the society.

About 93 % of the outreach are unable to take the treatment.

Anandvan De-addiction Center is always trying to minimise the percentage.

Expected ratio has to be more than the needs of the social awareness.

HANDS FOR THE SHAKING

Are these the AGES of ignorance in the family ?

Why these hands are becoming a hindrance for the society ?

Are they hopeless and helpless to us ?

Are they really a burden to the children for whom they have ruined their entire life and savings ?

**Anandvan De-addiction & Rehabilitation Center
does not feel so...**

We work to give them a better, safe and peaceful life. They are much more for us. We try to build a concrete mind and a way of life at the sunset, by all means .

As the days are passing these AGES are getting ignorance and less care.

We realised the need of a caring hand for them and really a home, where they can utilise their soul and mind for the Sunset.

THESE HANDS WILL NEVER SHAKE

Awareness ...

The need of awareness is the main function.

Huge amount of the society is yet not aware of the destructions which takes place in addiction.

Day by day the youth is been attracted towards many forms of addiction. Due to lack of confidence, aims and goals of the life, the youth, under adoloscent ages are trying to glorify the life as they have no role models in front of them.

As a part of the society, its our prime duty to aware these ages about the hassles of various drugs and addiction.

Rehabilitation a process

**There's much more to share in the life.
Each one has to take the best of it.
Life is full of mysteries and glories.**

Anandvan De-addiction Center always try to bring the addicts into the main stream of the society, by all means, ethically, morally and financially.

IEC

information, education & communication

Awareness

Each n every individual should be aware of their own life. If a addict is to be treated, his relatives should know Do's and Dont's of the person.

The family should get all the information about the addiction to help the addict for a better recovery.

In Anandvan, family counselling is the most important aspect, from which a treated addict gets help in recovery.

The family is been given the education for to refract the addict from socio-economic problems.

Get.. Set... Go.....

Humanity does Matter

A addict personality is very much isolated from the family and the society.

Anandvan De-addiction Center always help them out, creating a stable personality amoungst them to enter main stream of a new life.

Not only in day to day life, but all the other qualities are also taken care.

There may be a industrialist or artist or a labour, all are hidden in themselves, but they need a proper guidance and counselling to upcome.

Anandvan along with MITCON helps them to accelerate their hidden qualities.

Sharing the experiences is also a effective weapon to make them open. If one of them speaks open mindly, he can get a way to ensure his life stable.

Group Psychology

Easiest way to surrender ourselves to get an opportunity to live a healthy life is to open ourselves in society.

Getting Cultural ..

Every human being is social personality. There are many religious festivals in and around India.

In Anandvan De-addiction Center a addict personality is treated and taught his social role. It is a preparation for him to get acquainted with the society and family. He himself has to realise the losses occurred in the time of addiction, i.e. Social, Economic Ethical and Cultural losses.

Anandvan De-addiction Center found and sortout the increasing addiction amoungst the adoloscent, school going and teenager children.

Various types of addictions are dooming the lives of these children and their families.

'VILKHA' is purely based apon facts and figures of the addicted children.

'VILKHA' a non-commercial telefilm,
produced by Anandvan De-addiction Center

Its a step taken, just to create a awareness within the parents of these children.

As per a 'saying',

"Fish Always Starts Rottenning From The Head"

Now, we together have to squeeze the morale & treat the society for the Best of All outcome.

Together

**Join
Hands to
Kill
Addiction**

**When there's a WILL,
Then there's a WAY...**

The HOPE & HUMANITY does a miracle.

Hands together can change the scenario of the life. Many faces can smile by satisfaction. Only we have to tackle the hopes by love, care and humanity.

We can do it.

Lets aim the target and run for prosperity of the society. Lets get indulged in the race.

We are sure for the outcomes, but we have to try it more & more & more...
