I am MCA student with a Bachelor's in Computer Science, strong programming skills, and experience in building responsive, user-focused web applications. Passionate about problem-solving, learning new technologies, and developing efficient software solutions. Seeking opportunities to apply and grow as a software developer.

SKILLS

- Languages: C, DSA, JAVA,PHP
- Front-End : HTML, CSS, JS
- DataBase : MySQL, Postgres ,Oracle,MongoDB
- Soft Skills: Teamwork, Problem-solving, Quick learner
- Version Control: Git, GitHub
- Deployment & Hosting: Render
- Tools: VS Code, IntelliJ IDEA, Postman

EDUCATION

MCA

Modern College of Engineering	7.73 CGPA	2024-2026
-------------------------------	-----------	-----------

Bachelor of Science in Computer Science

Abasaheb Garware College, Savitribai phule Pune University	7.86 CGPA	2021-2024
--	-----------	-----------

HSC

Abasaheb Garware College	81.67%	2021
--------------------------	--------	------

SSC

HHCP HIGH SCHOOL Huzurpaga	81.20%	2019
----------------------------	--------	------

CERTIFICATIONS

- C , C++,DSA
- JAVA
- MERN Stack Web Development (Ongoing)

ACADEMIC PROJECT

Online Pizza Ordering System | Java, HTML, CSS, JavaScript, PostgreSQL

Created a responsive web app for customizing pizzas, managing orders, and processing secure online payments via Razorpay.

Implemented Java-based backend for authentication, order tracking, and payment handling with PostgreSQL for data management.

SaaS-Based AI Chatbot Platform|PHP Laravel, MySQL, HTML, CSS, JavaScript, Gemini AI, REST APIs

Developed a multi-tenant SaaS chatbot platform enabling businesses to create and deploy domain-specific AI chatbots for websites.

Implemented "Bring Your Own API Key" architecture allowing users to integrate their own Gemini AI keys for secure and flexible usage.

Built automated website scanning and training system to extract domain content and generate

context-based knowledge for chatbot responses.

Designed strict domain-restricted AI response logic ensuring outputs are relevant only to the trained business data.

Developed a secure admin dashboard for chatbot creation, configuration, and monitoring with authentication and role-based access control.

Smart Café Ordering System

MERN Stack, React.js, Node.js, MongoDB, JWT, Tailwind CSS

- Developed a full-stack café ordering system allowing customers to browse the menu, add items to cart, and place orders online.
- Built an admin dashboard to manage menu items, track pending orders, view total sales, and identify most sold items.
- Implemented JWT-based admin authentication and protected routes for secure access.
- Added real-time analytics, sales ratio visualization, and PDF report generation, including downloadable payment receipts for orders.

ADDITIONAL SKILLS

- Baking ,Dancing,Chrochet
